

TIP OF THE WEEK

Choosing Safe Toys and Gifts

The right toy can help build imagination and coordination. The challenge is to find a toy that your child will love and that you know is safe, meeting their skill-level and abilities.

INSPECT. Your child's toys should be durable with no sharp edges or points. The toys should also withstand impact.

NO CHOKING HAZARDS. Don't give toys with small parts to young children.

AGE APPROPRIATE. Read directions carefully and follow suggested guidelines. Is the toy right for your child's ability and age?

HOW TO USE IT. Explain how to safely use the toy.

NO DAMAGED TOYS. Repair or throw away damaged toys.
